EDUCATION

Rensselaer Polytechnic Institute

Troy, NY

Bachelor of Science: Computer Science | GPA: 3.7

Dec 2025 (Expected)

- **Relevant Coursework: Data Structures, Algorithms, Software Design and Documentation, Machine Learning From Data, Distributed Systems and Algorithms**

WORK EXPERIENCE

AI Camp

Palo Alto, CA

Product Manager Intern

Sept 2023 - Dec 2023

- Led and mentored a team of 6 high school student interns in the utilization of NVIDIA's NeMo guardrails alongside GPT-3.5-turbo, developing an educational bot that teaches HTML to middle and high school students.
- Bot used in 8 different courses teaching over 60 students per course, and programmed using Python and Colang.

Rensselaer Polytechnic Institute

Troy, NY

Undergraduate Mentor

Aug 2023 - Aug 2024

- Provided academic support for students in 3 different courses.
- Held 6 hours of office hours, and ran 2 hours of labs each week.

PROJECTS

REST API For AWS Identity Store | IBM | Python, AWS Lambda, CloudFormation

Project Manager

Jan 2024 - May 2024

- Created a REST API for IBM Cloud team managing security and identity permissions.
- API serves over 100 IBM teams worldwide daily.
- Integrated AWS Identity Store with IBM Security Verify allowing single sign-on across identity providers while developing an API that addresses AWS SCIM API limitations.

Terraform Automation For Data Science App | IBM | HashiCorp Terraform, AWS VPC, React

DevOps Engineer

May 2024 - Aug 2024

- Created an automation tool using HCP Terraform that launches an AWS Virtual Private Cloud containing 2 public subnets, 2 private subnets, with 4 total t2.large Ubuntu servers.
- This tool automates the deployment of updates of the web application for the IBM Cloud team.
- t2.large Ubuntu servers host a web application that includes content relating to data science.

Accessible Routes Routing API | Rensselaer Polytechnic Institute | Python, Django, AWS EC2 servers, Docker

Backend Engineer

Aug 2023 - May 2024

- Developed a RESTful API using Python and Django to provide accessibility data (stairs, elevators, ramps) for Rensselaer Polytechnic Institute's campus.
- Deployed frontend and backend using Docker and AWS EC2 servers. Configured servers for domain name and SSL certificate integration.

SKILLS & AWARDS

Awards: National Cyber Scholar with Honors, Dean's Honor List, FBLA Gold in Computer Game and Simulation

Programming Languages: Python, Java, C, C++, HCL

Certifications: AWS Certified Cloud Practitioner, Terraform Associate, GIAC Foundational Cybersecurity Technologies

Backend Development: Django, PostgreSQL, Docker, Nodejs

Frontend: React, HTML, CSS, Javascript
