EDUCATION

Rensselaer Polytechnic Institute

Bachelor of Science: Computer Science | GPA: 3.6

Troy, NY

May 2025

- Relevant Coursework: Data Structures, Algorithms, Software Design and Documentation, Distributed Systems

WORK EXPERIENCE

Zero Sum Defense

Minneapolis, MN (Remote)

Member of Technical Staff

July 2025 - Present

- Ship production **Rust** on the **Tauri** desktop client (**React** and **TypeScript** frontend) within months of first using the language
- Built the browser-automation flow behind the client's in-app payment feature, handling multi-step checkout and verification
- Debugged a hardware-token login failure that reproduced only on clean installs, traced it to per-target native binaries, and wrote the build scripts **GitLab CI** runs for Windows, macOS, and Linux so a bad binary surfaces in CI
- Built the AWS account provisioning pipeline behind customer signup, replacing a **25-minute** manual setup with a zero-touch flow that has provisioned nearly **20,000 accounts**, tracked in **DynamoDB**
- Use **Claude Code** daily for feature delivery, scoping and reviewing agent-generated code before it ships

IBM

Troy, NY

Software Engineering Intern

Jan 2024 - Aug 2024

- Built an open-source **REST API** for the AWS Identity Store on **AWS Lambda**, serving **100+ IBM teams** daily
- Closed a gap in AWS's **SCIM API** by merging its responses with the AWS Identity Store SDK, returning complete user records and enabling single sign-on via IBM Security Verify

AI Camp

Palo Alto, CA

Software Engineer Intern

May 2022 - Dec 2023

- Led a team of **6 interns** shipping an educational bot with **NVIDIA NeMo** guardrails and **GPT-3.5-turbo**, deployed in **8 courses** reaching **60+ students** each
- Built **Django REST APIs** on **PostgreSQL**, including cohort grouping for **300+ students**, and trained a **scikit-learn** resume classifier that held **88% accuracy** over six months in production

PROJECTS

Who is Tyler Du, Portfolio Site with AI Agent

github.com/Vicguin65/Portfolio-Website

Personal project

Sept 2024 - Present

- Built the full stack solo: **React 18** and Vite frontend, **Python FastAPI** backend on **AWS Lambda**, infrastructure in **Terraform**
- Implemented an AI agent that reads a resume and knowledge base from **S3** and uses **Claude** to evaluate candidate fit against a pasted job description

Accessible Routes | Rensselaer Polytechnic Institute

github.com/Accessible-Routes

Full-Stack Engineer

Sept 2023 - Nov 2024

- Built the backend REST API from scratch in **Python** and **Django**, serving campus accessibility data (stairs, elevators, ramps) that powers turn-by-turn accessible routes, deployed on **AWS EC2**

SKILLS & AWARDS

Languages: Python, Rust, TypeScript, JavaScript, HCL

Frameworks & Databases: React, FastAPI, Django, Tauri, PostgreSQL, DynamoDB, scikit-learn, NVIDIA NeMo, Claude API

Tools & Practices: Git, GitLab CI/CD, Docker, Linux, AWS (Lambda, API Gateway, EC2, S3, IAM), Terraform, Claude Code, object-oriented design, REST API design, code review

Certifications & Awards: AWS Certified Cloud Practitioner, HashiCorp Terraform Associate; National Cyber Scholar with Honors, Microsoft Engagement Program Scholarship, Dean's Honor List
